

Friends of Patients at the NIH Many helping one. One helping many.
The Friends of Patients at the National Institutes of Health provide Hope and Healing by giving emotional and financial support to patients receiving groundbreaking and life-saving treatments at the NIH.

Happy Thanksgiving from Friends of Patients at NIH

Dear Friends,

As you gather with family and friends to celebrate Thanksgiving, I want you to know how grateful the patients and families served through Friends of Patients at the NIH are for your help.

"For an organization to be able to help support families and help them pay bills so they can be here, so they can keep the gas on back home... that makes a difference. It's the difference between finding the will to go on and feeling that you can't go on any longer." Kimberly

"Truthfully, the support I've gotten by Friends of Patients has been incredible; they are always on top of things... At the moment when I mostly needed it, they were able to help me, they were able to secure me an apartment at the Monterrey, and truthfully it was at the right time, because truthfully the resources start to evaporate, and then it is difficult." Martha

"I'm much more relaxed. I like to be at home a lot so the apartment feels like a home rather than a hospital room or hotel." Lauren

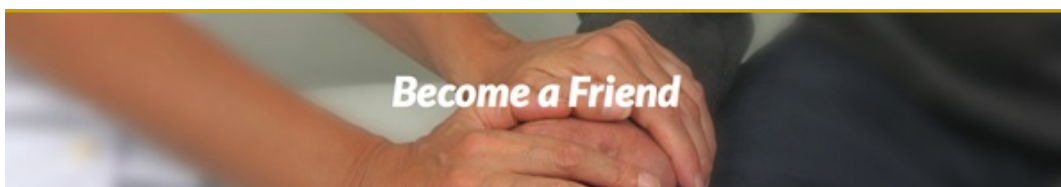

During this Thanksgiving season, please know how grateful we are for your thoughtfulness, generosity and many kindnesses. Happy Thanksgiving.
Warmly,

Jerry Sachs
Interim President
Friends of Patients at the NIH

Friends of Patients at the NIH

Friends of Patients at the NIH featured on Great Day Washington.

Friends of Patients at the NIH provides support for patients at the NIH Clinical Center by offer financial assistance for housing and utility expenses, access to respite care and support for travel costs.
